GitHub: https://github.com/Yogesh-techfield Mobile: +91-8307607339

## Skills

- **Languages**: C++, JavaScript, C, Python, Java
- **Frameworks**: Html, Css, NumPy, Pandas, Matplotlib and Seaborn
- **Tools/Platforms**: Power BI, Excel, MySQL
- **Soft Skills**: Problem-Solving, Team Player, Critical Thinking

## Internship

- **Full Stack Web Development Intern - Sparkiit.net /** July 2025 -August 2025
  - Developed a Personal Expense Tracker application to help users monitor income and expenses.
  - Engineered the data visualization module by integrating a library like Matplotlib to generate dynamic charts.
  - Leveraged C++, Node.js, and MySQL to build the full-stack infrastructure, ensuring efficient data handling.

    **Tech Stack Used**: C++, Node.js and MySQL
- **AI Intern - *1stop* /** *August 2024 -September 2024*
  - Engineered a Real-time facial detection and MediaPipe to accurately identify and track people from live webcam.
  - Optimized the recognition model performance, achieving a 98% accuracy rate and reducing the processing time.
  - Utilized a computer vision stack including Media Pipe, OpenCV, and Pynput to analyze the facial expressions.

    **Tech Stack Used**: Media Pipe, OpenCV and Pynput

## Projects

- **Amazon Sales Dashboard 2024 / :** August 2023 -September 2023
  - Designed a fully interactive Amazon-style Sales Dashboard as part of a data visualization journey.
  - Integrated dynamic charts and pivot tables to track sales trends and performance metrics, utilizing Excel and Tableau.
  - Delivered a comprehensive, real-time sales reporting tool used to monitor key performance indicators (KPIs) and identify actionable market insights.

    **Tech Stack Used**: Excel, Tableau, Pinterest
- **Virtual exam Trainer / :** July 2023 -August 2023
  - Developed a Virtual AI Trainer capable of generating personalized practice questions, evaluating responses, and providing instant feedback to enhance learning efficiency.
  - Integrated intelligent modules for subject selection, difficulty adjustment, and automated score tracking to create an adaptive training environment.
  - Built an interactive, user-friendly frontend interface that communicates with backend AI endpoints to deliver real-time predictions, hints, and performance analytics.

    **Tech Stack Used**: Fast API, HTML, CSS, JavaScript, REST APIs, JSON

## Certificates

- Backend Web Development using Express and Node/devtown/ June 2024
- IELTS Pro: Reading |Writing | Listening | Speaking / Udemy / May 2024
- Python for Data Science / Board Infinity / February 2024

## Achievements

- 72 Hours completion of Computer Programming /neo colab/ April 2025
- Bronze level in C++ and Python in Hacker Rank/ April 2024

## Education

- **Lovely Professional University** Punjab, India
  *Bachelor of Technology - Computer Science and Engineering;* ***CGPA: 6.7*** *Since August 2023*
- **Pathania Public School** Rohtak, Haryana
  *Intermediate;* ***Percentage: 75%*** *April 2021 - March 2022*
- **Pathania Public School** Rohtak, Haryana
  *Matriculation;* ***Percentage: 92.2%*** *April 2019 - March 2020*
